Sl. No. 1 Letter no 1-21/70 cc. 2 dt. 23/6/70 AF. 206 AHT 70.
from ICAR N. Delhi.

Note No 1

Sub: Release of 300 acres of forest land for hybrid seed garden -- regarding --

---

Note.1.

1) Sri K.P.A.Memon, Secretary. I.C.A.R. in his letter Dt. 23.6.1970 has requested for the release of 300 acres of forest land out of the area marked in the plan for establsing seed gardens as proposed by them.

2) (2) Instructions of the Secy. A.&.F. on this letter is as follows:--

> "Pl. process this urgently. I am told that Kerala Govt. is also interested in having this Unit in their State and unles we hurry up ~~xxxx~~ the project may go to that State
>
> xx cc

3) (3) This may be dealt with in the Forest Section ~~xxxx~~ as the land to be released is 'Forest land', in consultation with the Director of Horticulture.

S.O

—8—

Note. 8

7789

Secy A&F) Before issue, F1 check up whether grants to Associations / Institutes are also covered by the Land Grants Rules.

13) 11/11

11/11 12/11/70

Note 9

(1) All land grants have to be made under the Land Grant Rules and this has to be done by the R.D. The direct leases of forest land are being made by this Dept. by entering into specific agreements. (14)

(2) In the instant case, where in a decision in principal has been taken to grant the land to ICAR, the nature or mode of grant has into be determined, namely whether the proposed grant would be an outright grant — free of cost, or would be a lease basis. (15)

(3) — The ICAR authorities have requested to make available the extent of about 149 acres free of cost or @ a nominal rent if deemed necessary. It is felt desirable to grant the land on lease @ a nominal rent of Re. 1/- (one only) say for a period of 20 years, renewable thereafter for such period, as may be mutually agreed. Such a lease would help the State Govt. retain the superior rights in respect of the land — by attaching certain suitable conditions; (16)

Page 2 of the Linked file.

Whereas the outright grant would vest indefinite rights in the ICAR and in effect, the land would be & remain as such, a central Govt property — regardless of the ICAR continuing the research work.

6858

17) (4) It is therefore for orders whether the extent of land now proposed, be given on lease for a period of 20 years or even 30 years, @ a nominal rent of Re 1/- per year for the whole area. If this is approd, the land can be transferred to RD for leasing the area under Rule 19 of the L.G. Rules. (placed below).

16/11/70

7923.

~~Secy. A&F~~) Note. 10

18) We may lease out the area to ICAR for Re 1/- per year for a period of 30 years, instead of 'granting' it to them & refer the case to RD.

1.8.71

DS
US(Tech.)

42) The subject matter pertains to the disposal of the standing forest growth on an area of 142.8 acres of land granted on lease to M/s Central Plantation Crops Research Institute, Kasargod in the Kidu Reserve Forests of Subramanya Range, Mangalore Division. The grantees of the land is a Central Government Institute under the I.C.A.R. and the area is required for taking up certain field experiment connected with crop research and hence is conditioned by a time bound programme.

43) Since the grantees are interested only in the land and not in the forest growth existing thereon, as usual the Forest Department has made earnest attempts to dispose of the existing tree growth subject to certain conditions one of which happens to be the clearance of the area at certain time. The Forest Department had also programmed to get the valuable timber of teak and rosewood delivered at the Government Timber Depot for subsequent sale ~~during~~ through the ~~Government~~ Forest Dept. at the cost of the Contractors who would be purchasing the rest of the forest growth. This arrangement is consistent with the accepted principle of the Government to get the valuable timber of teak and rosewood and others disposed off through the Government timber Depots.

44) As could be made out from the report of the C.F. dated 22-7-1971 on page 67 c.f. the various attempts made by the D.F.O.Mangalore to dispose off the timber in the open auction sale has proved to be unsuccessful because of some reason or the other. At the same time an area of atleast 50 acres out of 142.8 acres ~~xx~~ is required urgently for adhering to the programme of planting by the grantees. Against the background of these events the President of the Forest Labourers' Co-operative Society Ltd., Puttur has

~~brought the~~ approached the Forest Department for the grant of 2 small bits of the forest area (Coupes No A & F comprising of 23.5 and 27.1 acres respectively) on negotiated sale at the rate of Rs. 70,000/- and Rs. 90,000/- respectively for the A & F strips subject to the same terms and conditions as envisaged in the original auction sale Notification. The matter has come to the Government at this stage. In this context the following facts are brought for kind consideration:

(1) The ~~repeated~~ repeated attempts on the part of the Departmental officers to dispose of the forest growth subject to the condition has not proved successful. (45)

(2) The request for negotiated settlement has come from an organised institution like a Co-operative Society which also deserves encouragement. (46)

(3) The negotiated settlement is in respect of only about 50 acres of forest area which ~~has originally~~ is urgently required for keep up to the schedule of the grantees. (47)

(4) Over and above these considerations, it is also brought to the notice, that the timber Merchants and Saw Mill Owners of South Kanara District have organised themselves into an Association and have been demanding the continuation of the age-old practice of disposal of the entire standing growth of forest without any reservation or pre-condition which is against the interests of the Government. Instances are not un-common when they have boycotted the auction sale and ultimately succeeded partially in their ~~xxx demand~~ attempt. (48)

Such tendencies on the part of ~~the~~ an organised (49)

Association holding the Government at ransom deserves to be faced squarely and the offer of the President of the Forest Labourers' Co-operative Society Ltd., Puttur has come in handy to tackle the problem. The upset price in respect of the strips of forests have been fixed on a rational basis though how far this upset price indicates the market value can only be known on actual sales. Further it is not merely an item of work of sale of produce but it is linked with the expenditure item to the Government on the felling, transport and delivery of certain species of timber at the Government Depot at a rate fixed by the Department. It is a combined revenue-cum-expenditure sale notification.

50) Considering these, in the larger interest of the department orders may please be passed agreeing with the proposals of the C.C.F. The matter may also be got examined by the Finance Department since it is a negotiated transaction necessitate by circumstances. A draft G.O. put for kind approval.

3/8/1971

3/8

Sec)

51) The matter was discussed with the Secy. to G.F and it was decided (1) that the Sale Notification as published may be adhered to and to that extent the CCF(G) had already issued telegraphic instructions to the D.F.O. Mangalore. (2) and that the result of the Sale may be got from the D.F.O. by Telegram

20
212 FGh70

and examined at ~~[illegible]~~ the CCF(G) Office and if necessary at Govt. level.

3/8/71

The D.F.O. Mangalore has been requested to send the result of the sale telegraphically to Govt. immediately after the auction sale.

4/8/71

Kind reference invited to the Telegraphic intimation from the DFO Mangalore intimating the result of the auction sale vide P.70 of.

Since the rates offered in the Tender cum Auction sale has exceeded the upset price fixed by the Departmental Officers ~~[illegible]~~ fen in excess by a wide margin, if approved, further recommendations / proposals of the CCF (G) in this behalf may be awaited and decided in the normal course in consultation with the F.D.

17/4.

33 AFD-212-FGL70

87

The Central Plantation Crops Research Institute (Indian Council of Agricultural Research) have been leased an area of about 142.80 acres of land in Kidu Reserve Forest, Subramanya Range, Sulia Taluk for Hybrid Seed Garden for a period of 30 years on a nominal rent of Re.1/- per annum for the whole area as against the area of 300 acres asked for by the I.C.A.R. - vide No. AFD 212 FGL 70 dated the 31st December 1970. Since this land has been leased, it was not necessary to surrender it to the R.D. It is for consideration whether the Govt. Order may be modified in this behalf. The same I.C.A.R. has requested for an additional area of about 500 acres for seed garden for Cashew under the Crash programme for isolation and multiplication ~~and multiplication~~ of genetical superior planting material in the Narimogru Reserve Forests. The C.C.F. has recommended for the release of 500 acres of land at one end of the reserve forest and not the area asked for by the I.C.A.R. It is not known whether this area will be convenient to the I.C.A.R. It is for consideration whether the I.C.A.R. may be consulted in this matter or sanction may be accorded to the lease of the area proposed by the C.C.F. Since we have charged the nominal rent of Re.1/- per annum for the entire area in respect of the land already leased, it is for consideration whether any rent may be charged for this area. Since this Institution is financed by the Central Government, it is for consideration whether instead of a nominal rent regular rent may be charged to this institution based on the loss of the revenue to the Government on account of the fact that this area will not be available for forest plantations to enable the Govt. to make good the extent of loss of Forest revenue.

p.38/c

para 2 on p.106/c

p.120/c

88 As the area asked for by the ICAR is not the one now proposed by the CCF it is better if they are submitted before issue of lease order. After getting their opy. file be put up for taking decision on lease rent etc.

J/1

[illegible]

Copy of D.O.letter No.F.10(1)/72(S&C) Dated 18th March,1972, from the Director,Central Plantation Crops Research Institute (Indian Council of Agricultural Research) Post Kudlu,Kasaragod, Kerala,S.India,to the Chief Conservator of Forests in Mysore, Bangalore.

I am to recall to the telephonic conversation that we had today regarding the programme of this Institute to establish a cashew seed garden for isolation and multiplication of high yielding varieties. In view of the thratened stoppage of raw cashew supply from Africa, the Government of India is very much concerned about increasing the indigenous production of this crop. It has, therefore, been decided to launch a crash programme of cashew for the above purpose by this Institute. This requires about 500 acres of land to start with. If the site is somewhere near Vittal which is a centre where the cashew research is now in progress it will be easy for operation of the scheme. The site is also required to have water, facility. There should also be minimum facilities for the staff that will be appointed under the scheme. With these points in view a few sites have been seen by the staff of this Institute. It has been possible to locate one in the Narimogru Reserve Forest of Puttur Range in the South Kanara District.

In this block, an area of about 293 acres has already been planted for soft wood by your Department. They have further cleared 193.7 acres after felling and burning. It is due to be planted during this rainy season. The Council would be grateful if 50 acres out of this cleared area is allotted immediately to start the work by June, 1972 for which planting material is already ready. We would plant the rest of the proposed area of 500 acres on a phased manner of 200 acresper annum.

It may kindly be considered whether the remaining areas in this block can be reserved for future expansion of the programme. I may add that a proposal to set up a National Polytechnic for Plantation Crops is also under consideration of the Council and the remaining area in reserve can be a suitable site for this purpose.

I have requested for 50 acres of the area already cleared to get a lead of one year in starting the programme. If we wait for the clearing of any other area in the block, there will be a delay of one year in the supply of breeders' plant material of cashew.

A rough sketch of the site is enclosed. In this connection I am to state that Mrs.P.P.Trivedi,I.A.S.Additional Secretary, Indian Council of Agricultural Research, who was at this Institute yesterday and the day before, had also a look at the site and had held some preliminary discussion with the Secretary, Agriculture and Forest Department, Government of Mysore.

I shall be very grateful for an early decision. Pending settlement ofthe terms of transfer, the area of 50 acres may kindly be allotted immediately.

With kind regards.

(COPY)

N.

The request of the Central Plantation Crops Research Insitute is for 200 Hectares in this Reserved Forest of which 20 Hectares is to be out of the clear felled area and the remaining 215-66 hectares to be reserved for their future programme. This Reserved Forest had been reserved for the Departmental plantation programme and clear felling was being taken up from year to year as per the budget allotment received. Accordingly this year 199.70 acres (79.80 Hectares) has been clear felled and planting materials has also been raised for the above.

Now with the request of the Institute it is bound to upset our Plan programme, in so much as, that we would have to select and alternate site. But since the area is required for research purpose out of which we are bound to get sufficient knowledge and help in raising of cashew, the same may kindly be considered.

Yours faithfully,

M.K. Appayya

Mangalore.1. dated 30.3.1972.

To
The Chief Conservator of Forests
in Mysore,
Bangalore.

Sir,

Sub:- Request of Central Plantation Crops Research Institute for grant of 500 acres land in Narimogru R.F - Puttur Range for Cashew seed garden

---

Ref:- Chief Conservator's No. D.O.B3. GFL/670/SR/71-72 dated 28-3-1972 addressed to Sri K.V.Ahamed Bavappa, Director C.P.C.R.I Kudlu and copied to this Office.

With reference to the above subject I submit herewith a report in triplicate along with the sketch of the Reserved Forest.

Narimogru R.F. is situated in Puttur Range comprising an area of 585.06 Hectares (1,445.10 acres) This area was originally clear felled under the Fuel Working Circle as per the original Working Plan. The vegetation comprises a pole crop consisting of Terminalia tomentosa, Xylia-xylocarpa, Lagerstroemia lanceolata, Artocarpus hirsuta, and other jungle woods.

Under the IVth Five Year Plan programme the physical target of Matchwood plantation allotted to this Division was 400 Hectares per year as per Chief Conservator of Forest's B1 - 28 -DWP.1834/ /68-69 dated 15-11-1968. Accordingly to meet the target this Reserved Forest was selected for raising Matchwood as this fell under the unallotted area in the proposed Working Plan. Accordingly 170.30 Hectares of which 24.30 Hectares (60 acres) were planted during 1956. As such an area of 362.18 Hectares is still available of which an area of 47.20 Hectares(118.10 acres) has been surveyed and enumerated for raising during 1973 rains.

Clear felling to an extent shown below has been carried out from one corner of the Reserved Forest.

Year	Hectares cleared
1969	47.20 Hectares
1970	19.20 Hectares
1971	79.60 Hectares

To

The Hon'ble Minister for Agriculture
and Forest Department,
Mysore State,
Vidhana Southa, Bangalore.

Dy. Secy. A & F Dept. & Ex-officio Dir., A.P.O. No. R.675 Date. 13/4/72

Sub:- Allotment of 1000 acres of forest land near Puttur - regarding.

---:o:---

Sir,

I am to state that in view of the threatened stoppage of raw cashew supply from Africa the Government of India is very much concerned about increasing the indigenous production of this crop. It has, therefore, been decided by the Indian Council of Agricultural Research to launch a crash production programme of cashew planting material. The Project that is to be implemented by this Institute envisages establishment of a Cashew seed garden for isolation and multiplication of high yielding varieties. This requires about 500 acres of land to start, with a future possibility of expansion to 1000 acres. The site has to be somewhere near Vittal which is the main centre for cashew research so that it will be easy for administration of the scheme. The site is also required to have water supply. There should also be some existing minimum facilities such as schooling, residential accommodation, etc. for the staff that will be appointed under the scheme which will mean that the site has to be within a reasonable distance from an existing town. With these points in view a few sites have been seen by the staff of this Institute. It has been possible to locate one such site in Narimogru reserve forest of the Puttur range, South Kanara District.

Secy. A.P.O. 2176 13/4

Min. Agri. No. Date.

Call for report

K. H. PATIL. Minister for Agriculture and Forests.

In this block, an area of about 293 acres has already been planted with soft wood by the Forest Department. They have further cleared 193.7 acres after felling and burning. It is due to be planted during this rainy season. The Council would be grateful if 50 acres out of this cleared area is allotted immediately to start the work by June, 1972 for which planting material is already available. We would plant the rest of the proposed area of 500 acres on a phased programme of 200 acres per annum.

Secy. A.P.O. to Comm. DS(AF)

It may kindly be considered whether the remaining area in this block can be reserved for future expansion of the programme. In this connection I may add that a proposal to set up a National Polytechnic for Plantation Crops is also under consideration of the Council and the remaining area in reserve can be a suitable site for this purpose.

13/4

I have requested for 50 acres of the area already cleared to get a lead of one year in starting the programme. If we wait for the clearing of any other area in the block, there will be a delay of one year in the supply of breeders' plant material of cashew.

Sri R. 13/4

A rough sketch of the site is enclosed for favour of kind perusal.

Yours faithfully,

(K. V. Ahamed Bavappa)

GOVERNMENT OF MYSORE

No. AFD 212 FCL 70.

MYSORE GOVERNMENT SECRETARAT,
VIDHANA SOUDHA,

Bangalore, Dated 5th April, 1972

From

The Secretary to the Government of Mysore
Agriculture & Forest Department.

To

The Chief Conservator of Forests
(General) in Mysore, Bangalore.

Sir,

Sub: Grant of the remaining area in Kidu R.F. and 500 acres additionally in Narimogru Reserve Forest of Puttur Range to the Indian Council of Agricultural Research - regarding.

In enclosing copies of letters No.F.65(39)/70-Tech dated 7-3-1972, 11-3-1972, 16-3-1972, 17-3-1972 and 23-3-1972 of the Indian Council of Agricultural Research, Kasargod, on the subject mentionedabove, (along with a sketch to be returned) I am directed to request you to offer your remarks in the matter.

Further, I am directed to state that it is learnt that the clear-felled area of 200 acres requested for by the Director is meant for raising soft-wood plantation and it may not be advisable to release the area to the institution. If that is the position, I am directed to request you to suggest some other alternate area for the purpose. A detailed report may please be sent early.

Yours faithfully,

(S.B.Chikkamath)
Under Secretary to Government,
Agriculture & Forest Department.

Sir,

PIO'

I am to invite your kind reference to this office letter of even number dated the 7th March, 1972 on the above subject and also to the discussion that you had with Mrs. P.P.Trivedi, Additional Secretary, Indian Council of Agricultural Research about the release of the remaining area of 158 acres out of the total 300 acres alloted to this Institute at the Kidu Reserve Forest and to request you to kindly pass early orders to release this area as agreed to by you. The area is required by the Institute for planting in 1973 June. In this connection it is pointed out that the area already released has been fenced up and planting is being taken during the current year.

Yours faithfully,

K.V. Ahamed Bavappa

(K.V.Ahamed Bavappa)
Director.

Dy. Secy., A & F Deptt. & ex-officio Dir., A.P.O. No. R.S.9.D. Date 20/3/72

My dear Shri Datar,

Apropos to our talk today. ICAR is very grateful for all the assistance and facilities given by the Government of Mysore for the Council research programme.

1553 17/3

May I draw upon your assistance further for the following projects:

(1) Mysore Government in their G.O. No. AFD 212 FGL 70 dated 31st December, 1970, allotted 300 acres to the Indian Council of Agricultural Research for setting up of Coconut, Arecanut and Cocoa seed farms at a distance of 30 miles from Vittal under the Central Plantation Crops Research Institute of the Council. An area of about 142 acres has already been released out of a total of 300 acres. It is proposed to plant ~~out~~ this area by the end of April for raising breeder seed of these crops. The remaining area may kindly be released as early as possible ~~and~~ but not later than February, 1973, so that it could be planted by April, 1973. The seed material for the remaining area is being made ready this year

AFD 17/3

18.3.72

(2) An area of about 500 acres is required for the establishment of Seed Garden for cashew under the crash programme for isolation and multiplication of genetical superior planting material. Director, C.P.C.R.I. has already submitted a note vide No.F.65(39)/70-Tech. dated 11th March, 1972. We would be grateful if this area or any other suitable area near Vittal is given to the Central Plantation Crops Research Institute, for undertaking this work.

Sri R 20/3

(3) In 1968, the Asst.Horticulturist, Horticultural Farm, Chettalli (now transferred to the Institute of Horticultural Research, Hessaraghatta) proposed to the Divisional Commissioner, Coorg, that 250 acres of paisari land (Govt. Forest Land) out of Survey Nos.49/3 and 114 of Cherala Srimaruali Village) adjacent to his existing farm may be transferred to the Department of Horticulture for expansion of the Experiment Station, Chettalli. The Divisional Commissioner, Coorg, has after consultations with all concerned, recommended to the Secretary to the Govt. of Mysore, Revenue Department, in his letter no. LND V-28C-1802/67-68 dated 19-12-1968, that 200 acres out of the Survey Numbers referred to above may be transferred to the Department of Horticulture. The case is pending with the Revenue Department (Vide

..2..

Agriculture and Forest Department letter no. AF 384 AHT 69 dated 22-9-1971 to the Director of Horticulture, Bangalore). I would be grateful for your assistance in getting this case expedited.

We look forward to your visit to our Institute of Horticultural Research and your comments on the programme undertaken by it. We would also be grateful for your comments on the implementation of the ICAR projects in the State.

With best regards,

Yours sincerely,

P.P. Trivedi

.....

Sir,

I am to state that in the endorsement of the above-cited letter to this office, it has been mentioned by the Deputy Secretary that the question of release of the remaining area will be taken up after the area already released is developed. In this connection, I am to point out that the planting material already available with us is getting over-aged due to the delay in handing over of the area already allotted. On the basis of the overall programme, planting material has already been produced and are being produced to plant the entire 300 acres by 1974. It has been the experience that even with the best of efforts, it has taken more than two years to hand over 142 acres from the time of passing of the Government Order because of the formalities involved in the sale of the trees etc. As such, unless the order is passed immediately to hand over the remaining area also, we will not be in a position to get this area by '73 end. I would, therefore, request that orders may please be passed to release the remaining area also so that the targeted planting programme will not suffer.

GOVERNMENT OF MYSORE

OFFICE OF The

No. B3/GFL/714/71-72.
Encls.

Chief Conservator of Forests(Cl)
in Mysore, Bangalore,

To

Date 28-10- 1971.

The Secretary to Government,
Agriculture and Forest Department,
Bangalore.

Sir,

Sub:- Forest Department - South Kanara District Sullia Taluk - Subramanya Range - Kidu R.F. Grant of 142.80 acres in favour of the Central Plantation Crops Research Institute (I.C.A.R.).

Ref:-Your No.AFD-212-FGL-70 dated 12-10-71.

I enclose herewith a copy of letter No.C-4-FCP/857/GFL/70-71 Dated 15-10-71 of the Divisional Forest Officer, Mangalore which indicates the progress achieved in this case.

Yours faithfully,

Chief Conservator of Forests

N.

Copy of letter No.C4-FCP-857/GFL/70-71 Dated 15-10-71, from the Divisional Forest Officer, Mangalore Division, Mangalore, addressed to the Director, Central Plantation Crop Research Institute, Post Kudlu, Kasaragod (Kerala State), and copied to the Chief Conservator of Forests in Mysore, Bangalore.

Sub:-Forest Department - South Kanara District - Sullia Taluk - Subramanya Range - Kidu R.F - grant of land in favour of the Central Plantation Crops Research Institute (ICAR).

Ref:-Ref.No.F.65 (39) 70-Tech. dated 4-10-71 of the Director Central Plantation Crops Research Institute Kasaragod.

In continuation of this office letter of even number dated 13-9-71 this is to inform you that an area of 50 acres has been felled and timber and fuel removed from the coupes A, B, and C as requested by you, burning departmentally could not be taken up during this month as there was heavy rains in that area and rains, it is learnt would continue upto January. However it is felt that alignment and pitting could be started after some clearance of the felled residual materials in the area. This is for your kind information.

Sub:- Kidu R.F. - Forest land - release to Central Plantation crops Research Institute Kasaragod regarding.

In continuation of the discussions I had with the Agronomist of your Institute during the joint inspection of the Kidu R.F. yesterday I am to inform you that this Department does not undertake the burning of the area before handing over to any Institution. However if this work is to be got done through this Department it would be carried out provided an amount of Rs 7.25 for I burning and Rs 19.50 for II burning per acre is kept at the disposal of this Office. This rate is as per the sanctioned Schedule of rate adopted for the purpose of Departmental work in this Division. Further the cost of earth work sanctioned is Rs 1.10 per cubic metre for digging in soft disintegrated rock. This is for your kind information.

As discussed in the field action has been taken to clear portions of coupes, A, B,C amounting to 50 acres to make it available for your immediate planting.

Dear Sri Naik,

Subject:-Forest Department S.Kanara District-
Sullia Taluk - Subramanya Range Kidu RF
Grant of 142.80 acres of land in favour
of the Central Plantation Crops Research
Institute (ICAR) for Hybrid Seed Garden -
Sanctioned.

--

Please refer to your D.O.letter No.AFD 212 FGL 70, dated 2-8-1971, on the above subject. The arrangements suggested by the Central Plantation Crops Research Institute, Kasargod, to entrust the work of clearance of 50 acres in respect of plots 'A' and 'F' out of Kidu R.F. to the Forest Labourers Co-op.Society, Puttur, was not found possible in view of high rates received in the tenders. The time prescribed for clearing this area is 29-2-72. It is reported by the Divisional Forest Officer, that the contractors have been requested to clear the tree growth and vacate the coupes as early as possible to facilitate planting by the Central Plantation Crops Research Institute.

Hardly satisfactory ?

US (Tech)
9/9/71

It also disposes of letter No. 65(39)/70-Tech, dated 2-8-1971, from the Institute, addressed to you, and copy endorsed to this office.

Sub.:- Kidu Reserve Forest land release to Central Plantation Crops Research Institute, Kasaragod regarding -

---

Sir,

I am to invite reference to my d.o. letter of even number dated the 2nd August, 1971 regarding the release of 142.8 acres of land assigned to this Institute by the Govt. of Mysore in Kidu Reserve Forest. Since the area of at least 50 acres is immediately required for taking up the planting, it had been moved that the area may be given on up set price to the Forest Labourers Coop. Society, Puttur (S.K.). The paper was sent for consideration to the Secretary, Agriculture and Forest Department, Govt. of Mysore, Bangalore. In the meanwhile, I am now given to understand that areas have been auctioned for cutting and removing the tree growth. According to the time schedule given to them, the land is likely to be available only by June, 1972. The planting material that this Institute has prepared is already over aged and if not planted immediately, will cause considerable loss on one side as well as delay in getting the project implemented which will in turn affect the hybrid seednut production. I am, therefore, to point out that whatever may be the agency for cutting and removing the tree growth, 50 acres of land should be made available to this Institute by September end so that this irreparable loss of the planting material can be saved. This fact has already been brought to your notice and the Secretary, Agriculture and Forest Department, Bangalore as well. Suitable action to get the plot of 50 acres at least cleared of forest growth may please be taken and the area made available to this Institute.

Yours faithfully,

Sd/-

6th August 1971.

Dear Shri Bavappa,

This is in reply to your D.O. letter No. F.65(39)/70-Tech dated 2nd August 1971. When I mentioned to you on the telephone that there may be no difficulty in entrusting the working of clearing timber growth in the 50 acres of land out of the 140 acres proposed to be given to the Institute, I was not aware that the auction of the relevant coupes has been already fixed on 4th of this month. The suggestion to entrust the work to the Society was made and I had indicated was acceptable, on the presumption that if the work is left to the Contractors, it would take considerable time for being completed. Since the tenders have already been called, and I understand that the bid amounts are very much larger than the estimated amounts at which the coupes were proposed to be entrusted to the Labour Society for working, I have suggested to the C.C.F. that he may instruct the Conservator of Forests and D.F.Os to finalise the tenders immediately and get the work done at the earliest. I expect that this work will meet the purpose which we have in mind viz. getting 50 acres of the Forest area cleared by the end of this month or so. Same will apply to remaining areas also for which the tenders have been invited.

Yours sincerely,
Sd/-

Dated 2nd August, 1971.

Dear Shri Naik,

I am to recall to the telephone conversation that we had yesterday about the handing over possession of the land released by the Government of Mysore for the use of this Institute when you had kindly agreed to pass the orders to entrust the work of cutting trees to the Forest Labourers Coop. Society, Puttur (S.K.). In this connection I had pointed out that the remaining area out of the present assignment is also required by the Institute by April, 1972 positively and unless the clearing of the tree growth is also taken up immediately, the land will not be available for planting. You had suggested that the remaining area can also be given to the same Society on up set value for clearing. I am to request you to kindly see that suitable orders are passed entrusting the 50 acres to the Society for immediate clearing and also the remaining portion to the same agency which is prepared to take up the work and complete the same positively by March.

With kind regards,

Yours sincerely,

No.B3/GFL/714/70-71. CHIEF CONSERVATOR'S OFFICE(GL)
Encl: 2 Bangalore, dated, 28 July, 1971.

To

The Secretary to Government,
Agriculture and Forest Department,
BANGALORE.

Sir,

SECTION
26420
29 JUL 1971

Sub: Grant of 142-80 acres of land in Kidu R.F. in favour of Central Plantations Crops Research Institute, Kasargod.

Ref: Your DO Letter No.AFD 212 FGL 70 dated 14-7-71.

I enclose herewith a copy of D.O.Letter No.L.79-479/LSE/70-71, dated 22-7-71, together with its enclosure received from the Conservator of Forests, Coorg, on the above quoted subject.

2. In view of the urgency expressed by Director, Central Plantation Crops Research Institute, and as recommended by the Conservator of Forests. I have no objection to give coup Nos. A and F comprising of 20.48 Hectares (50.60 acres) to the President of the Forest Labourers' Co-operative Society Ltd. Puttur, on the terms and condition of the sale notice and at the sanctioned upset price of Rs.70,000/- and Rs.90,000/- respectively.

3. Teak, Rosewood and Aine shall be extracted and delivered by the Society at the specified Depot at the specified rate.

Orders of Government in the matter may kindly be communicated urgently.

Yours faithfully,

Chief Conservator of Forests(Gl)

MYSORE FOREST DEPARTMENT

B. MAHAPPA,
CONSERVATOR OF FORESTS,
COORG CIRCLE, MERCARA.

DATED THE 22nd JULY 1971.

D.O.NO. L.79-479/LSE/70-71.

Dear Sir,

Sub: Forest Department - South Kanara District - Sullia Taluk - Subramanya Range - Kidu RF - Grant of 142.80 acres of land in favour of the Central Plantation Crops Research Institute(ICAR)for Hybrid seed Garden - sanctioned -

Ref: Your letter No.B3-GFL-714/70-71 dated 19.7.1971

In enclosing herewith a copy of letter No.C4.FOP.857/GFL/70-71 dated 16.7.71 of the Divisional Forest Officer, Mangalore Division along with a copy of its enclosure, for your kind perusal, I submit that the area of 142.80 acres granted on lease to Messrs: Central Plantation Crops Research Institute, Kasargod, in Kidu R.F., of Subramanya Range, Mangalore Division was divided into six(6)bits as noted below and the tree growth in it excluding Rosewood and conceded species was exposed for sale on 5.4.1971 by the Divisional Forest Officer giving time upto 31-5/30-6-71 for the completion of work as noted against each coupe, since Rosewood has to be extracted departmentally as per your letter No.B3-GFL/714/70-71 dated 22.4.1971 and conceded species have to be got extracted by Messrs: Mysore Commercial Union. In this connection, I invite your kind reference to the letter No.FOP.857/GFL/70-71 dated 16.3.1971 of the Divisional Forest Officer, Mangalore Division addressed to you.

Coupe A	- 9.51	Hectares	-	31-5-1971
B	- 9.19	"	-	31-5-1971
C	- 9.15	"	-	30-6-1971
D	- 9.51	"	-	30-6-1971
E	- 9.47	"	-	30-6-1971
F	-10.97	"	-	31-5-1971

At the time of the sale, there were representations from the bidders stating that the time allowed is insufficient to work out the coupes. Since the area was required by the Institute urgently (as reported to you in this office reference of even No.dated 5.3.1971), the Divisional Forest Officer, Mangalore Division extended the time for all the coupes upto 30-6-1971. Even then, only one coupe - coupe B - could be sold. The sale was confirmed by me as reported to you vide this office reference No.L.46-383/LSL/70-71 dated 28.4.1971. Since the purchaser of Coupe 'B' did not either execute the agreement or removed the timber so far, ~~and~~ the Divisional Forest Officer has cancelled the sale vide his Proceedings No.C4.EXP.247/FTC/71-72 dated 16.7.1971(copy enclosed). The remaining coupes were, as stated by the Divisional Forest Officer exposed for sale on 27.5.1971 giving time upto 30.11.1971 and on 8.7.1971 giving time upto 30.4.1972, but there were no bidders. In this connection, your kind reference is invited to this Office reference No.SAS.4238/TBR/70-71 dated 12.7.1971 on the representation of the Timber Merchants dated 8.7.71.

(Page 2)

In the meanwhile the Director of the Institute approached the Divisional Forest Officer, Mangalore Division and requested him to hand over at least 50 acres of land as they want to start their planting works. In this connection, I invite your kind reference to the letter No.F.65(39)70-Tech,dated 12.7.1971 of the Director, addressed to the Secretary to Government, Agriculture and Forest Department, Bangalore and copied to you, to this Office and to the Divisional Forest Officer, Mangalore in which among other things he has stated that the Forest Labourers' Cooperative Society, Ltd., Puttur, has come forward to take up the work at the upset price fixed by the Government and requested to pass necessary orders. The President of the Forest Labourers' Cooperative Society Limited, Puttur in his representation dated 12.7.1971 addressed to the Secretary to Government (copy received along with the letter dated 12.7.1971 of the Director) has agreed to take up the work at the upset fixed by the Government and to abide by all the terms and conditions of the Government in this regard.

The Divisional Forest Officer, Mangalore Division inview of the urgency has recommended to give coupe No.A & F comprising of an area of 20.48 hectares(50.60 acres) to the Society at the terms and conditions of the sale notice at the sanctioned upset price of Rs.70,000/- and 90,000/- respectively.

In this connection,it is submitted that unsold 5 coupes A,C,D,E,F of Kidu Forest referred to above (comprising of 120.10 acres) has been included for disposal along with the other clearfelling coupes of Mangalore Division. According to condition 1 of the tender-cum-auction sale notification dated 21.6.1971 (copy enclosed) of the Divisional Forest Officer, Mangalore Division, Teak, Rosewood and Aini species of timber are also to be extracted and delivered by the successful contractors to the specified timber depots at the rates specified in schedule 'B' of the Notification and according to condition 27(a) all conceded species specified in schedule 'D' of the Notification are reserved to be extracted by the Industrial Companies.

On account of the representation of the Timber Merchants made to the DivisionalForest Officer on 8.7.1971, you have issued orders for carrying out certain modifications in the notification already issued by the Divisional Forest Officer.

In case the request of the Society has to be considered coupes A & F of Kidu Reserve Forest will have to be deleted from the Notification dated 21.6.1971 published by the Divisional Forest Officer.

In view of the circumstances stated above, the Forest Labourers' Cooperative Society,Ltd, Puttur, may be entrusted with the clearing of 50.60 acres of land out of 142.80 acres on the terms and conditions of the sale notice dated 21.6.1971, but limiting the lease period to 15.9.1971, and subsequent modifications to be issued thereon vide your letter No.A6-232-1361/70-71 dated 15.7.1971 at the sanctioned upset price so that the area is released to the Research Institute by the end of September, 1971.

Yours sincerely,

Sd/-

(E. Marappa.)

Shri Y.M.L. Sharma,
Chief Conservator of Forests(G1)
In Mysore, Bangalore-1.

6

Copy of letter No.C4-FOP-857/GEL/70-71,dated 16-7-71 from the Divisional Forest officer,Mangalore Division to the Conservator of Forests,Coorg Circle,Mercara.

Sub: Grant of 142-80 acres of land in Kidu R.F.in favour of Central plantations crops Research Institute Kasargod -

Ref: D.O.letter No.F.65(39)70 Tec.12th July,1971 of the Director of C.P.C.R.I. to the Secretary,Agriculture and Forest Department,Bangalore.

I invite your kind attention to the above reference and have to submit as follows:-

142-80 acres of land was to be handed over to the above Institute vide G.O.No.AFD-212-EGL/70 dated Bangalore 31-12-70/4-1-71 after disafforestation. Accordingly sales were conducted on 5-4-71, 27-5-71 and 8-7-71. But unfortunately except for coupe (B' none of the other coupes could be sold due to certain objections put forth by the contractors. The coupe 'B' sold to Sri.K.Abdul Khader has also not been worked so far as the contractor has represented to the Conservator of Forests,Mercara regarding extension of time.

Meanwhile the Institute have been pressing for releaseing of area as they want to start their planting works. The Director who met me personally has requested that as a last report at least 50 acres should be handed over to them by the end of September. They have also vide reference cited above enclosed the representation from the President,Forest Labourers' Cooperative Society,Puttur who have come forward and agreed to clear any of the areas at the upset sanctioned by Government.

At present since the institute is in urgent need of the land and since there is no alternative but to permit the society to clear the land at the upset sanctioned by Government. As such I recommend that coupe Nos.'A' and (F' comprising an area of 23-50 and 27-10 acres at the sanctioned upset of the Conservator of Forests vice Ref.D.O.No.PS.63/USP/70-71 dated 2-4-71 amounting to Rs.70,000/- and Rs.80,000/- may be given to the society at the terms as applicable in the sales conditions. True copy of the certificate of Registration of the society is submitted.

C.4.EXP.247/FTC/71-72.

Proceedings of the Divisional Forest Officer, Mangalore Division Manga-lore dated 16.7.1971.

Subject: Forest coupe - Kidu Coupe 'B' sale held on 5.4.1971 Nonpayment of instalment and execution of agreement - cancellation of sale -

R e f: ~~Agreemen~~ This office No.EXP.247/FTC/71-72 dated 24.5.71

Shri K.Abdul Khader, S/o Mohammad Ammangodu of Muliyar Village, Kasargod Taluk was the highest bidder for the right of cutting, collection and removal of the growing stock exeept Rosewood and marked conceded species in coupe 'B' of Kidu R.F. for the period ending 30.6.1971 for Rs.76,700/-. He has failed to execute the agreement after paying the Ist instalment within the due date as communicated to him in this Office Ref. No. EXP.247/FTC/71-72 dated 4.5.1971.

Again notice has been issued to the purchaser to remit the 1st instalment and to execute the agreement on or before 21.5.1971.

Since he has failed to remit the 1st instalment with Sales Tax in full and security deposits of Rs.2500/-, the sale is hereby cancelled and the E.M.D. of Rs.3000/- paid in respect of the said coupe is forfeited to Government and the said cpupe will be resold as per condition 17(v) of the sale notice No. FOP.857/GEL/70-71 dated 17.3.71 at his risk and cost.

Dt. 1st August, 1971
2

Dear Shri.Sharma,

Under my D.O. letter of even number dated 13th July, 1971, I had requested you to ascertain if at least 50 acres, out of the 300 acres in the Kidu R.F. area proposed to be granted to the Central Plantation Crops Research Institute, could be cleared and made available to them immediately for taking up planting, which had to be undertaken in the month of August. From your letter No.B3/GFL/714/70-71, dated 13th July, 1971 addressed to the Under Secretary, I find that you had referred the request of the Institute to D.F.O. Mangalore for spot inspection. I shall be grateful to know whether the arrangements suggested by the Institute have been found possible to implement and the progress made in clearing the 50 acres and handing them over to the Institute at the earliest.

Side by side, I would also like to know the approximate time that will be required by the Department for clearing the remaining 142 acres and odd before they could be handed over to the Institute.

Yours sincerely,

(R.A.Naik)

Shri.Y.M.L.Sharma,
Chief Conservator of Forests(Gl.),

D.O. No.B3/GFL/714/70-71

Dear Sri Chikkamath,

Sub: Grant of 142.80 acres of land in Kudu R.F. in favour of the Central Plantation Crops Research Institute Kasargod.

P 60

Please refer to your D.O.letter No.AFD 212 FGL 70, dated 5-7-1971, addressed to the Chief Conservator of Forests (General) by name.

The request of the Director, Central Plantation Crops Research Institute, Kasargod, has been referred to the Divisional Forest Officer, Mangalore, for spot inspection and offering his remarks.

E 13/7

Since an area of 142.80 acres has already been ordered for release to the said Research Institute, it appears that grant of additional land is not an imminent feature since they have to develop the land that is being released to them.

Sri R 13/7

Yours Sincerely

(S.K.Varadaraj.)

Shri S.B.CHIKKAMATH
Under Secretary to Government,
Agriculture and Forest Department,
Bangalore.

R.A. Naik,

105

AFD 212 Acl 70.

13th July 1971.

Dear Shri Sharma,

This is in continuation of our telephonic conversation of this morning. I believe that Shri Bavappa, Director, Central Plantation Crops Research Institute has already sent a copy of his letter No. 65(39)/70-Tech. dated 12/7/71 to you wherein he has suggested that at least 50 acres of land out of the 300 acres in the Kidu R.F. agreed to be given to them, may be got cleared immediately and handed over to them as they want to take up the planting during August 1971. Unless at least 50 acres are cleared immediately and handed over to them, they may not be able to make use of all the seedlings they have already got ready. Since reportedly the Forest Contractors in that area have not been coming forward to take up the clearing work on reasonable terms, it has been suggested by Shri Bavappa that the Forest Labourers' Cooperative Society Ltd. of Puttur may be entrusted with this work. There are already Government orders, if I remember correctly, under which the Labour Cooperative Societies have to be given preference over the contractors in such matters. I shall be grateful if you could issue suitable instructions by telephone or telegram to the D.F.O., Mangalore to do the needful in this regard under intimation to me.

Yours sincerely,

Shri Y.M.L. Sharma,
Chief Conservator of Forests (General),
Bangalore.

Please issue the D.O. letter as dictated.

(Indian Council of Agricultural Research)
Post KUDLU. Kasaragod, Kerala, S. India

D. O. No. F. 65(39)/70-Tech.
Dated 12th July, 1971.

Dear Shri Naik,

I am to recall to the discussion that we had while I called on you in your chamber on the 7th instant regarding the handing over possession of 300 acres of land in the Kidu R.F. for the use of this Institute when you had so kindly agreed to expedite the matters. The 142.8 acres of land already placed at the disposal of this Institute had been put for auction on 7th of this month by the Divisional Forest Officer, Mangalore; but he has not been able to get the bidders. He has informed that he has proposed to the Conservator to remove the trees departmentally. He has also informed that in the event of Department taking up the work they will require some more time even though he will try to get the work done as early as possible. Since the Institute requires at least 50 acres for its immediate use, any delay in getting possession of this land will adversely affect our planting programme. As such we were making efforts to get some contractors who will at least take the area on the basis of upset price fixed by the Government. One such contractor (The Forest Labourers' Co-operative Society Ltd., Drmg.No.121, Puttur) which has agreed for this has given an application to take up the work. The application received from the Society is enclosed herewith. I would request you to kindly examine the proposal sent by the Divisional Forest Officer, Mangalore as well as the application received from this Society and pass necessary orders so that the area immediately required by this Institute is cleared and the same made available to this Institute. We want at least 50 acres of land by September positively.

With kind regards,

Yours sincerely,

K.V. Ahamed Bavappa

I come to understand that the 142.8 acres of land in Kidu R.F., Subramanya Range, Sulya Taluk, South Kanara District placed at the disposal of Central Plantation Crops Research Institute (Indian Council of Agricultural Research) in G.O.No. AFD.212-FGL. 70 dated Bangalore the 31st December, 1970/4th May, 1971 had been put for auction for the removal of tree growth and that no bidder had come forward to take up the work. The Forest Labourers Coop. Society Puttur is prepared to cut and remove the tree growth from half the area within the prescribed period and the rest in the allotted time from the date of assignment of the work to the Society, based on the upset price fixed by the Government. The Society is also prepared to deposit as per condition, the upset price on the date stipulated by the Government. The Society is also prepared to abide by all the terms and conditions stipulated by the Government in this regard.

Early orders entrusting work to the Society are requested.

D.O.No. PA/AS(AR)/71/1675

दिनांक
Dated June 24, 1971

Dear Shri Naik,

The Council is very grateful for the kind assistance given by the Mysore Government in placing at the disposal of the Central Plantation Crops Research Institute, Kasaragod about 150 acres of land to start the elite seed garden. Our total requirement for this garden is about 300 acres and we had requested for this area. I hope it will be possible for the Mysore Government to place the remaining land at our disposal in due course to enable us to expand our activities in this regard.

I learn from our Director, Central Plantation Crops Research Institute, Shri K.V. Ahmed Bavappa, that the area released has not yet been handed over to him. The planting material is ready and has to be planted in this area not later than August-September. If this is not done during this period, one whole year will be wasted and the implementation of the project will be delayed.

I shall be very grateful, therefore, if the possession of the land is given to the Director immediately, as agreed upon.

With best regards,

Yours sincerely,

June 24, 1971

My dear Menon,

Would you kindly refer to your D.O. letter No.1-21/70-CC.I dated 14th June, 1971 regarding release of additional extent of 160 acres in favour of I.C.A.R? This area could not be released along with the area of 142-80 acres as it was covered under a contract for sleeper-cum-logging operations last year. We are ascertaining from the Chief Conservator of Forests whether the contract work is over and whether the area is now available for release. Orders releasing the additional area will be issued immediately after it is reported to be available.

Yours sincerely,

(R.A.Naik)

Sri.K.P.A.Menon,
Secretary,
Indian Council of Agricultural Research,
& Joint Secretary to Government of India,
Ministry of Food Agriculture,
C.D. & Cooperation (Dept. of Agriculture),
NEW DELHI.1

ISSUED
Date 25-6-1971

Sl. No. 21

(54)

114

AFD 212 FGL 70

24th June 71

Agri. & Forest Department

The Chief Conservator of Forests (GL)
in Mysore, Bangalore-1

Sir,

Sub: Release of 300 acres of forest land for Hybrid Seed Garden.

Ref: G.O. of even No. dated 4-1-1971 releasing 142-80 acres of land in Kidu R.F. Subramanya Range, Suliya Taluk, South Kanara District, in favour of M/s. K.A. R.Kudlu, Kasargod.

With reference to the above, I am directed to state that the ICAR authorities have requested for release of balance of the area of 160 acres as early as possible. It may be recalled that as against the request for 300 acres, only an extent of 142-80 acres could be released because the northern portion was under contract work for 1970-71 for sleeper-cum-logging operations. It is presumed that the contract work is over by now and that an area of about 160 acres from northern portion is available for being granted to the ICAR. Please confirm the position.

24-6-71

Yours faithfully,

Dy.Secy. to Govt. A.&.F.Deptt.

Dear Shri Rebello,

I am to acknowledge with thanks the receipt of your letter No.AFD 212-FGL 70, dated April 28, 1971 from Agriculture & Forest Department enclosing a copy of Government Order No.AFD 212-FGL 70, dated December 31, 1970 releasing 142.80 acres of land in Kidu Research Forest, Subramanya Range, Sulya Taluk, South Kanara, for the Indian Council of Agricultural Research.

2. In this connection, I would, however, invite your attention to the Council's letter of even number, dated June 23, 1970 addressed to the Secretary, Agriculture & Forest Department in which the State Government were requested to release 300 acres of forest land for Hybrid Seed Garden in respect of Coconut, Arecanut and Cocoa. I shall be grateful if orders are also issued for additional allotment of area of 160 acres of land at your earliest convenience.

With kind regards,

Yours sincerely,

No.1-21/70-CC.I. Dated the February, 1971
Magha, 1892

To

The Secretary to the Govt. of Mysore,
Agriculture & Forests Department,
Vidhan Soudha,
Bangalore.

Sub:- Release of 300 acres of forest land for hybrid seed garden - regarding.

- - - -

Sir,

I am directed to invite a reference to this office letter of even number dated the 23rd June, 1970 on the subject mentioned above (copy enclosed) and to request you to kindly communicate orders for the release of 300 acres of forest ~~XXXX~~ land at an early date.

Yours faithfully,

(O.D. GARG)
Under Secretary

No.1-21/70-CC.I. Dated the 23rd June,1970.

To

The Secretary to the Govt. of Mysore,
Agriculture and Forests Department,
Vidhan Soudha,
Bangalore.

Sub:- Release of 300 acres of forest land for hybrid seed garden-regarding.

- - - -

Sir,

I am directed to say that under the All India Coordinated Coconut and Arecanut Improvement Project which is scheduled to function from 1st October, 1970, a Production Unit each has been proposed to be established at Kasaragod, Kayangulam and Vittal. These Units will have to not only get in touch with cultivators to look into their problems but also to arrange for the supply of improved seed materials such as hybrids, selections etc. in respect of coconut, arecanut and cacao. Since these three crops are highly cross pollinated, production of the above seeds on large scale will have to be done under isolated conditions. In order to establish such an isolated garden far away from the existing plantations of coconut, arecanut etc., only land surrounded by reserve forests will be safe in the long run. For this purpose on area of 300 acres will be required.

In this connection it may be stated that the Director,CRIPC, Kasaragod as well as a team consisting of Soil Chemist and Agronomist of Vittal and Kasaragod respectively examined many plots in South Kanara District of Mysore State and the one marked out in the enclosed plan has been found to be suitable for establishing seed gardens of coconut, arecanut and cacao. I am,therefore, to request you to kindly release the 300 acres of forest land out of the area marked in the above plan to the I.C.A.R. to enable it to establish seed gardens as proposed.

An immediate action in the matter will be highly appreciated.

Yours faithfully,

Sd/-

Secretary

Copy forwarded for information to the Director, CRIPC, Kasaragod with reference to his letter No.F.520/1/70/3004, dated the 22nd May,1970. One more copy of the plan may please be sent for record in the office.

Sir,

Sub:- Assignment of 300 Acres Forest land in Kidu Reserved Forest for Hybrid Seed Garden - Reg.
.....

With reference to your letter No.AF 324 AHT 70 dated 16/17-11-70, forwarding a copy of the D.O. letter No.B3/GFL/714/70-71 dated 9-1-70 together with its enclosures, I write to state that this Department has not requested for any Forest land from the Kidu Reserve Forest nor any such reference made by this Department to the Government on the subject.

It is seen from the correspondence that the request for such land, was made by the Director, Central Research Institute of Plantation Crops, Kasargod which is an independent Central Institute for carrying out Research work on Arecanut, Coconut, etc.,

Hence, this Department has no connection with the lands in question.

Yours faithfully,

DIRECTOR OF HORTICULTURE

Ref:- 1. Government letter No.AFD. 212 / FGL- 80 dated 1/2 July 1970 communicated in Chief Conservator of Forest's No.B3. GFL. 557/70-71. dated nil, 1970

2. Government letter No. AFD. - 244 FGL/70 dated 30-7-1970 communicated in Chief Conservator of Forest's No.B3. GFL - 714/70-71 dated 12.8.1970

The selection of site for the proposed Hybrid seed garden was made by the Arecanut Specialist, Central Plantation Crops Research Institute, Vittal after inspection along with the Range Forest Officer Subramania on 8.10.1970 as per his report No. 828/69 d/ 17.10.1970. The site is situated between mile stone 25/4 and 26 of Uppinangady - Subramanya road on either side of the road. Southern portion is the sleeper - cum - logging area worked during 1969-1970. The northern portion is the current year's sleeper - cum - logging area for which tender was already called for.

Southern portion has since been surveyed. The total surveyed area comes to 142.80 acres and copy of ~~which~~ sketch has been enclosed. The Arecanut Specialist who inspected the area has expressed that the northern portion could be taken up next year after completion of the contract work, if the same could not be released during this year.

Since the land is required for the Central Government, I have no objection in releasing the area survyed (i.e. 142.80 acres) for the present and the remaining area to make full quota of 300 acres may be released after the sleeper - cum - logging contract work is over.

Yours faithfully,

23/10/70

Divisional Forest Officer,
Mangalore Division
Mangalore.

Encl:- 1 letter
2 Sketches.

MYSORE GOVERNMENT SECRETARIAT,
VIDHANA SOUDHA,

Dated, Bangalore, 1st July 1970.

FROM

The *Secretary to the Government of Mysore*
Agriculture & Forest Department.

To The Chief Conservator of Forests
in Mysore, Bangalore.

Sir,

Sub: Release of 300 acres of forest land for hybrid seed garden - regarding.

I am directed to enclose herewith a copy of letter No. 1-21/70-CC.1 dated 23-6-1970 together with sketches received from the Indian Council of Agricultural Research, New Delhi on theabove subject and request you to kindly send a detailed report in the matter.

This may be processed as expeditiously as possible.

Yours faithfully,

o/c

(M.A.Srinivasan)
Under Secretary to Government,
Agriculture & Forest Department.

Copy of letter No.1-21/70.CC.I dated 23-6-70 from the Secretary, Indian Council of Agricultural Research, New Delhi, to the Secretary to the Government of Mysore, Agri. & Forest Dept.,B'lore.

Sub:Release of 300 acres of forest land for hybrid seed garden - regarding.

I am directed to say that under the All India Coordinated Coconut and Arecanut Improvement Project which is scheduled to function from 1st October, 1970, a Production Unit each has been proposed to be established at Kasarggod, Kayangulam and Vittal. These Units willhave to not only get in touch which cultivators to look into their problems but also to arrange for the supply of improved seed materials such as hybrids, selections etc. in respect of coconut, arecanut and cacao. Since these three crops are highly cross pollinated, production of the above seeds on large scale will have to be done under isolated conditions. In order to establish such an isolated garden for way from the existing plantations of coconut, arecanut etc., only land surrounded by reserve forests will be safe in the long run. For this purpose an area of 300 acres will be required.

In this connection, it mya be stated that the Director, Central Research Institute of Plantation Crops, Kasaragod as well as a team consisting of Soil Chemist and Agronomist of Vittal and Kasaragod respectively examined many plots in South Kanara District of Mysore State and the one marked out in the enclosed plan has been found to be suitable for establishing seed gardens of coconut, arecanut and cacao. I am, therefore, to request you to kindly relcase the 300 acres of forest land out of the area marked in the above plan to the Indian Council of Agricultural Research to enable it to establish seed gardens as proposed.

An immediate action in the matter will be highly appreciated.

SELECTION A.D.D.
7 SEP 1970

My dear Shri Rachaiah

The ICAR have approached Mysore Government for the release of 300 acres of forest land in Subramanya area of South Kanara District for starting production centre for producing high yielding cononut and arecanut hybrids. You would be very well aware that there is acute shortage of the high yielding variety of coconut seedlings in the country and, particularly Mysore State, which has great potential for expanding coconut cultivation. MYSORE is going to be immensely benefited by this Project initiated by the ICAR.

Dear Shri Rachaiah, one of the important considerations to develop agriculture in our State ~~is~~ is the facilities and advice that we will be able to provide to the agriculturists after conducting some research and field demonstrations. Therefore, the importance of research cannot be over-emphasised. It is vital to ~~our very existence of~~ our agricultural community. As such, I have been all along pleading with the Central Government and with you at the State Government level for ~~your~~ immediate and sympathetic considerations to extend all possible assistance for research programmes. Whether it is orange, coconut, arecanut, paddy, spices, coffee, or any other important agricultural produce, we have got to take full advantage of the modern and scientific methods and the more we are able to provide these facilities, the greater would be the chance for our agriculturists to march ahead.

I, therefore, request you to kindly look into it and

D. RACHAIAH
Min. for Agriculture.

take steps to make available this plot of land to the ICAR for the purpose mentioned above. With your intimate knowledge of the Forest Department, you should be able to get the clearance of the Forest Minister in this regard without much of a difficulty.

By the way, it may not be out of place if I were to respectfully draw your kind attention to the question of handing over the Orange Research Stations in Coorg to ICAR. The orange growers' future interests are very much dependent on this and you will have to help us.

I have a programme to come down there to Bangalore on the 1st September and would take the chance of meeting you on the 2nd September morning.

With kind regards,

Yours sincerely,

(C.M. Poonacha)

Shri B. Rachaiah,
Minister for Agriculture,
Govt of Mysore,
Vidhana Soudha,
BANGALORE-1.

C.M. POONACHA,
MEMBER OF PARLIAMENT
(LOK SABHA)

22, Willingdon Crescent,
New Delhi-11
15th September 1970

Min. of St. Forests.
No. MF(MP) 140/70.

My dear Shri Alur Hanumanthappa,

The I.C.A.R. (Government of India) have approached Government of Mysore for releasing 300 acres of forest lands near Subramanya in Sullia Taluk, South Kanara District, for development of hybrid coconut seedlings, on a large scale to help the agriculturists for developing coconut cultivation in Mysore State and other areas. As you very well know, propagation of hybrid seedlings under scientific control and conditions is very essential and such nursery farming would help the agriculturists in Mysore State to a large extent.

You know that in the Fourth Five Year Plan, great emphasis is laid on dry farming. Since Mysore has wonderful opportunities for dry farming especially with regard to coconut plantations, Mysore has been selected as one among the many profitable dry farm cultivation centres for purposes of extensive propagation. As such, I request you to kindly look into the matter and release the area to the I.C.A.R. at the earliest.

I had written a letter to Shri B. Rachaiah, ~~from~~ to whom a ~~letter~~ has gone ~~to~~ from the ICAR. I understand that he has strongly recommended the release of the land and the matter is now awaiting your final decision. I hope you would accord your most sympathetic consideration to this question and do the needful.

With regards,

Yours sincerely,

Poonacha

(C.M. Poonacha)

Shri Alur Hanumanthappa,
Minister of State for Forests,
Govt of Mysore,
BANGALORE-1.

Secretary to get the report from CCF and let me know whether any reference has been made by I.C.A.R. and also find out whether the recommendation made by the previous Minister has been put up. Only all reference

AFD 244 FGL 70

Dt. August 19, 1970

Dear Shri.Sharma,

Kindly refer to this Office letter of even number dated 29/30-7-1970 pertaining to the request of the Central Plantation Crops Research Institute, Kasargod, for grant of land in Subramanya, for establishing a National Hybrid Seed Garden. Shri.Bavappa, the Director of the Institute had met me the other day during the Horticultural Development Council Meeting and requested me for expeditious issue of Government Orders, on their proposals. I shall be grateful, if a report requested from you, is sent up to Government as early as possible, preferably before the end of this month.

Yours sincerely,

19/8

(R.A. Naik)

Shri.Y.M.L. Sharma,
Chief Conservator of Forests,
New Public Offices,
BANGALORE-1.

GOVERNMENT OF MYSORE

No. AFD 244 FGL 70.

MYSORE GOVERNMENT SECRETARIAT,
VIDHANA SOUDHA,

Dated, Bangalore, 29th July 1970.

FROM

The Secretary to the Government of Mysore
Agriculture & Forest Department.

To The Chief Conservator of Forests
in Mysore, Bangalore.

Sir,

Sub: Forest Department - Mangalore District - Subramanya Range - Request of the Central Plantation crops Research Institute Kasargod to grant 300 acres of land for establishing a National Hybrid Seed Garden in Subramanya.

In enclosing a copy of letter No.F.520/1/70-5227 dated 2-7-1970 of the Director, Central Plantation Crops Research Institute, Kasargod, Kerala, on the subject mentioned above, I am directed to request you to send a report in the matter early.

Yours faithfully,

(B.N.Anjanappa)
Section Officer,
Agri. & Forest Department.

hns/29-7/

Copy of letter No.F.520/1/70/3227 dated 30th June 1970 from the Director, Central Plantation Crops Research Institute, Post Kudlu, Kasaragod, Karala, to the Minister for Food and Civil Supplies, Govt. of Mysore, Bangalore.

In continuation of the personal discussion that I had with you while I was at Bangalore, I am enclosing herewith a copy of letter No.1-21/70-CCI dated 23-6-1970 received from the Secretary, Indian Council of Agricultural Research, Krishi Bhavan, New Delhi-1 addressed to the Secretary to the Govt. of Mysore, Agri. & Forest Department, Vidhana Soudha, B'lore regarding the assignment of 300 acres of forest land for establishing a National Hybrid Seed Garden in Subramanya by this institute. A plan of the site is also enclosed.

In this connection, I am to state that the 300 acres will be planted with parent materials for the purpose of producing hybrid seeds of coconut, arecanut and cacao. The seed will be supplied to the cultivators in the Mysore State as well as other States on a no loss no profit basis. Since the entire programme is a research venture, I would request you to kindly see that the land is made available free of cost or at a very nominal rent, if it is found necessary. I had discussions with Sri C.A.Naik, Secretary, Agriculture, on this issue in the light of the discussions that I had with you, when he has agreed to do the needful in the matter.

With respectful regards.

Copy of letter No.1-21/70-CC.1 dated 23rd June, 1970 from the Secretary, Indian Council of Agricultural Research, Krishi Bhavan New Delhi-1 to the Secretary to the Govt. of Mysore, Agri. and Forest Department, Vidhana Soudha, Bangalore and copy marked to the Director, Central Plantation Crops Research Institute, Kasargod

---

Sub: Release of 300 acres of forest land for ~~the~~ hybrid seed garden - regarding.

I am directed to say that under the All India coordinated Coconut and Arecanut Improvement Project which is scheduled to function from 1st October 1970, a Production Unit each has been proposed to be established at Kasargod, Kayangulam and Vittal. These Units will have to not only get in touch with cultivators to look into their problems but also to arrange for the supply of improved seed materials such as hybrids, selections etc. in respect of coconut, arecanut and cacao. Since these three crops are highly cross pollinated, production of the seeds on large scale will have to be done under isolated conditions. In order to establish such an isolated garden far away from the existing plantations of coconut, arecanut etc., only land surrounded by reserve forests will be safe in the long run. For this purpose an area of 300 acres will be required.

In this connection, it may be stated that the Director, Central Research Institute, of Plantation Crops, Kasargod as well as a team consisting of Soil Chemist and Agronomist of Vittal and Kasargod respectively examined many plots in South Kanara District of Mysore state and the one marked out in the enclosed plan has been found to be suitable for establishing seed gardens of coconut, arecanut and cacao. I am, therefore, to requ you to kindly release the 300 acres of forest land out of the area marked ~~in~~ the above plan to the Indian Council of Agricultu

p.t.o.

Research to enable it to establish ~~x~~ seed gardens as proposed.

An immediate action in the matter will be highly appreciated.
